Objective

Deliver high-quality, responsive front-end solutions using HTML, CSS, JavaScript, and Bootstrap while focusing on attention to detail and user experience. Apply strong problem-solving skills and organized planning to build scalable, clean, and reusable code. Contribute to a collaborative environment that values respect, time management, and continuous improvement.

Education

Egyptian E-Learning University (EELU) – Faculty of Computers and Information

B.Sc. in Computer Science and Information Systems

Oct 2022 – Jul 2026 (Expected)

GPA: 3.75 / 4.0

Experience

(DEPI) – Full Stack .NET Trainee

July 2025 to Present (6 Months)

- Training on Full Stack Development with .NET, including backend services, REST APIs, and SQL Server.
- Developing interactive and responsive front-end interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Learning advanced C# and ASP.NET Core to build scalable web applications.
- Collaborating with a team on real-world projects to apply agile development practices.
- Enhancing skills in database design, optimization, and version control (Git).

Frontend Developer Intern

Personal Project [GitHub](#)

June 2025 to July 2025

- Designed and built a responsive travel website (World Explorer) using HTML5, CSS3, and Bootstrap 5.
- Implemented modern layouts with custom CSS animations and hover effects for a dynamic user experience.
- Optimized the website for cross-browser compatibility and mobile responsiveness.
- Structured and styled multiple sections (Home, About, Destinations, Gallery, Contact) following UI/UX best practices

E-commerce Clothing Store (Personal Project)

May 2025 – June 2025

- Developed a responsive e-commerce website for clothing using HTML, CSS, and JavaScript.
- Created core pages: Home, About, Products, Login, and Register.
- Implemented a shopping cart feature with add and remove functionality.
- Designed interactive product displays to enhance user experience.

- Optimized website performance and mobile responsiveness.
- Applied structured coding standards and reusable components.

Courses

- **Learn HTML & CSS – MaharaTech (Credential ID: RROZF85O70)**
Learned the fundamentals of web development, including structured page creation with HTML and styling with CSS for responsive designs.
- **Complete jQuery Course: Beginner to Advanced – Udemy**
Mastered jQuery fundamentals, including DOM manipulation, event handling, animations, and AJAX methods to build dynamic and interactive web applications.
- **Mastering Object-Oriented Programming (OOP) using C++ – MaharaTech (Credential ID: hUpQprAUv6)**
Learned OOP principles: classes, inheritance, and polymorphism.

Skills

- HTML5
- CSS3
- JavaScript (ES6+)
- Bootstrap 5
- Problem solving
- Git
- GitHub.
- Debugging
- Strong Attention to Detail
- Languages
- **Arabic:** Native.
- **English:** Good (Intermediate level).
